

AUG 12 1992

Revised FS Report for the L.E. Carpenter Site

Raymond Basso, Chief  
New Jersey Superfund Branch II  
Emergency and Remedial Response Division

(See distribution list below)

The purpose of this memorandum is to request that you and/or your staff review and prepare comments on the revised Feasibility Study (FS) Report for the L.E. Carpenter Site, which is located in Wharton, New Jersey. This report was prepared by a contractor working for L.E. Carpenter & Company pursuant to an Administrative Consent Order issued by the State of New Jersey Department of Environmental Protection and Energy (NJDEPE). A prior draft was distributed for review with my memo dated April 5, 1991. The current revision incorporates the results of a recent bio-remediation treatability study, as well as responses to comments on the prior draft.

I will appreciate receiving all comments on the revised FS report by no later than August 28, 1992. The comments should be transmitted directly to Jonathan Josephs of my staff in Room 13-100.

Mr. Josephs of my staff may be contacted at (212) 264-8098 if there are any questions about the FS Report.

Distribution List:

Robert Hargrove, EIB	(with 2 copies of FS Report)
Dore LaPosta, DGWP	(with 2 copies of FS Report)
Alison Devine, APB	(with 2 copies of FS Report)
Andrew Bellina, HWFB	(with 1 copy of FS Report)

cc: H. Barrack, OPM  
C. Simon, AWMD  
R. Caspe, WMD
